ABOUT SWEETCANE PACKAGING

Plastic-free packaging, factory-direct from Thai mills.

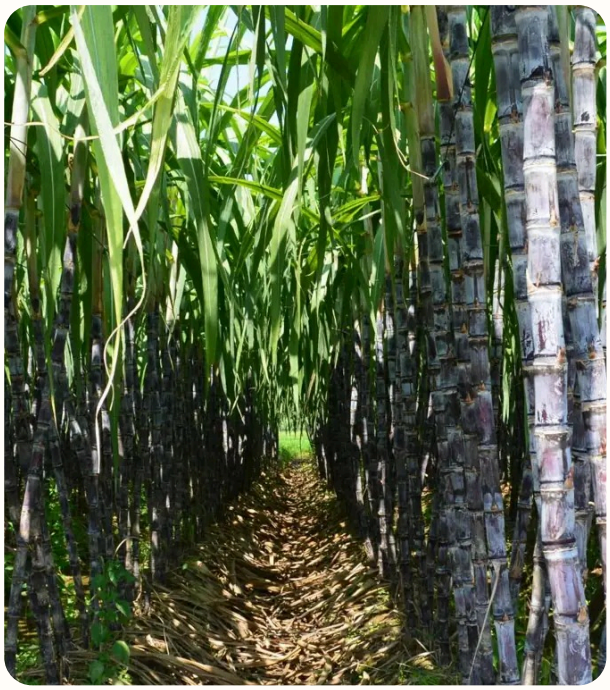

SweetCane Packaging supplies bagasse (sugarcane fibre) packaging factory-direct from Thai mills, shipped by the container.

We supply distributors, venues, hotels, caterers, restaurants and retailers with sugarcane bagasse packaging made from a by-product of sugar production – a plant-based alternative to plastic and polystyrene foam. Sugarcane and natural plant fibre only: no paper, PLA (polylactic acid) or plastic.

Bagasse is the fibrous material left after sugarcane is crushed for juice. Instead of being burned or discarded, it is pulped and moulded into sturdy food packaging and straws.

OUR VISION

Food businesses everywhere choosing plastic-free packaging because it is the simple, affordable option.

Our mission

Our mission is to make plastic-free packaging the easy, affordable choice for food businesses.

Supplying the USA, Canada, UK, Ireland, Australia, New Zealand and EU. SweetCane Packaging is a Kannon World business.

No trees cut

Made from an agricultural by-product.

Replaces single-use plastic

And polystyrene foam takeaway packaging.

Less field burning

Gives bagasse a use instead of burning it.

Factory-direct

Shipped by the container straight from Thai mills to your business.

STANDARD RANGE

The 2026 range at a glance

Seven core items covering drinks, takeaway and meal service. Every item is moulded from sugarcane bagasse and available in natural or white. All prices are quoted per order.

SUSTAINABILITY & CERTIFICATIONS

Certifications explained

What each certification means for buyers in North America, the UK, Ireland, Australia, New Zealand and the EU. This page is for information – it does not mean we hold these certificates today.

FDA

FDA (US Food and Drug Administration) food contact

Shows materials meet US food-contact requirements, supported by test reports.

EU

EU (European Union) food-contact – Regulation (EC) 1935/2004

The EU framework requiring that materials do not transfer harmful substances to food.

EN

EN 13432 (European Norm) / OK Compost

Standards for packaging that breaks down in industrial (EN 13432) or home (OK Compost HOME) composting.

LFGB

LFGB (German Food and Feed Code)

German food-contact testing, widely accepted across Europe.

BPI

BPI (Biodegradable Products Institute)

North American compostability certification.

PFAS

PFAS (per- and polyfluoroalkyl substances) test reports

Lab tests for no intentionally added PFAS. Our supplier states its items are PFAS-free with no plastic lining.

Current status

Certification documents (FDA food contact, LFGB, EN 13432 / OK Compost, BPI, PFAS test reports) are being collected from our factories. Ask us for current status for any item.

Bagasse products are designed to break down in composting conditions. Actual composting times depend on the facility and local conditions; check with your local waste provider. FDA does not “approve” packaging; compliance is supported by supplier test reports.

HOW ORDERING WORKS

Four simple steps from quote to delivery

We work with established factories in Thailand and ship orders directly to your business in the USA, Canada, UK, Ireland, Australia, New Zealand or EU.

1

Request a quote

Email us the product codes, sizes, estimated quantities and destination country. Prices are quoted per order based on product, quantity and destination.

2

Request samples

Request samples of the items you need, so you can check fit and quality before committing. Ask us for current certification status.

3

Factory-direct bulk shipping

Production takes 30–45 days after order confirmation. Your order then ships by sea from Thailand, FOB (free on board) Bangkok / Laem Chabang.

4

Minimum order quantity

MOQ (minimum order quantity) is 50,000–100,000 pieces per item, with mixed items allowed in one 40HQ (40-foot high cube) container.

What to include in your quote request

- ✓ Product codes and sizes (for example SC-TB600)
- ✓ Estimated quantities per item
- ✓ Colour: natural or white
- ✓ Straw packing: unwrapped (bulk) or individually paper-wrapped
- ✓ Destination country and delivery address
- ✓ Certifications you need (for example BPI or EN 13432)

Custom printing and private-label packing can be quoted per order.

SweetCane Packaging

REQUEST A WHOLESALE QUOTE

Let’s talk packaging.

Tell us what you need – products, sizes, quantities and destination – and we’ll reply with a quotation and can arrange samples.
